Manila, Philippines

A Computer Science degree holder experienced in software development, quality assurance, and end-to-end testing methodologies. Proficient in collaborating across diverse teams, identifying process improvements, and transforming technical insights into actionable solutions. Skilled in programming, documentation, website and Android application development, wireframing, and data workflow analysis.

EXPERIENCE

JR. QA SPECIALIST

OOm Singapore (PH Branch - Head Office)

August 2023 - Present | Full-time

- Conducted comprehensive browser and device testing using BrowserStack achieving 150%+ efficiency for enhanced cross-platform compatibility and user-friendly UI/UX.
- Ensured rigorous quality checks, maintaining a perfect 100% quality record, and demonstrating attention to detail crucial in software development and testing.

SOFTWARE QA ASSOCIATE

I-Asiatic Innovations Phils. Inc

March 2023 - July 2023 | Internship

- Executed automation testing using Playwright and Cypress frameworks, reducing testing time by 35% and enhancing issue identification.
- Collaborated with teams to ensure quality assurance, improving client satisfaction through manual testing, bug resolution, and comprehensive documentation.

FRONTEND WEB DEVELOPER

Bit Create IT Solutions

July 2022 - December 2022 | Internship

- Designed and implemented website features using Framer and Figma, enhancing user interface and experience.
- Contributed to the project's database management and documentation efforts, ensuring an organized database and comprehensive documentation for effective project maintenance and future reference.

TECH STACK

Languages: *HTML5, JavaScript, TypeScript, C, Python, CSS, Java, Visual Basic*

Automation Testing Frameworks: *Cypress, Playwright, BrowserStack*

JavaScript Frameworks: *Vue.js, Bootstrap, Quasar* | Version Control: *GitHub, Git*

Data Workflow Analysis: *Alteryx, Power BI*

Open-Source Documentation: *Docusaurus.io*

Cross-Platform Mobile Development: *React-Native, Expo Go*

Design and Wireframing: *Figma, Framer, Canva, Filmora*

Integrated Development Environment: *Visual Studio Code, Code::Blocks*

Microsoft Office Suite: *Word, Excel, Publisher, PowerPoint, Outlook, OneNote*

SKILLS

- Adaptable team player known for proactive problem-solving and self-driven results delivery.
- Strong attention to detail critical for accuracy and quality in software development and testing environments.
- Skilled in process improvement, with a track record of implementing strategies that enhance workflows and outcomes.
- Excellent communication and collaboration abilities, effectively bridging technical concepts with non-technical project partners.

EDUCATION

ACADEMIC TRACK STRAND: STEM

Polytechnic University of the Philippines

2017- 2019

- University Scholar
- Academic Excellence Award with Honors

BS IN COMPUTER SCIENCE

Technological University of the Philippines

2019- 2023

- DOST-SEI JLSS Scholar
- President's Lister
